Our History:

We are a ministry of Our Saviour's Lutheran Church serving children and families in the greater Arlington area for over 35 years.

Educational Philosophy:

As professional Early Childhood Educators, we know the power of play. Our program is directed at the whole child, addressing social, emotional, cognitive, spiritual and physical needs. Our Saviour's Preschool provides a loving Christian environment with emphasis on the developmental stages of the child. Our goal is for each child to feel successful while at Our Saviour's Preschool

Our Curriculum:

Our Saviour's Preschool curriculum offers:

- A balanced program of child initiated free choice activities and teacher-led small and large group activities.
- A variety of exploration opportunities to broaden children's understanding of our world including: art, sensory, science, manipulative, problem-solving, reading and writing.
- Our goal is for children to leave Our Saviour's Preschool instilled with confidence, well-prepared for the next step in their education, and with the foundation to develop a lifelong love of learning.
- We use the Love & Logic™ approach to help children develop a healthy understanding of cause and effect.

Staff:

Each of our lead teachers hold a bachelor's degree. Our diverse backgrounds are tied together with our common love for teaching young children. Our staff participate in continuing education opportunities

Safety:

Safety is a principle concern at Our Saviour's Preschool. Children are continuously supervised and all precautions are taken to ensure their safety. A background check has been conducted on each staff member and volunteers.

Medical Info:

Your child's immunization record must be up-to-date when beginning preschool. Please bring a copy to the church office when registering your child.
